RESIDENTIAL IRRIGATION SYSTEM ENHANCEMENT PROGRAM

The City of Chino is dedicated to working with the Chino community to improve water efficiency through the Residential Irrigation System Enhancement (RISE) Program.

Most sprinkler systems need maintenance as leaks and broken equipment can damage your landscape and waste water. Let our team inspect and tune up your sprinkler system for **FREE** to keep your yard healthy and water-smart!

What's included in the RISE Program?

- Sprinkler system evaluation with recommended fixes.
- Fix sprinkler heads and nozzles (replace or repair up to 12 broken sprinkler heads and nozzles, if necessary).
- Fix valves and wiring (replace or repair up to 3 valves, if necessary).

Please note: All work is completed in plastic/PVC parts.

To qualify for a sprinkler timer upgrade, the property must have an existing operational automatic irrigation system. These device upgrades will adjust daily based upon outside weather patterns. We'll come to your property and install it at **NO COST!**

Act Fast! First Time Applicants Only! Start saving by applying for our programs today! Restrictions apply and funding is limited, so apply now. Text "Chino" to (951) 813-2110 or visit www.cityofchino.org/conservation to obtain more information.
